

PARAMETERS

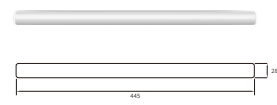

Model Name:	AM35-10/13-R-ES-Z
Charging Voltage:	DC12V
Rated Voltage/Power:	DC12V/36W
Rated Current:	3A
Sleep Current:	<250μA
Receive Frequency:	868.3MHz
Rated Torque:	10N
Unloaded Speed:	13RPM
Levels of Protection:	IP44
Working Temperature:	-20°C~+65°C

Model Name:	AM15-03/35-ES
Rated Voltage/Power:	DC12V/4.8W
Rated Current:	0.4A
Sleep Current:	<150μA
Receive Frequency:	868.3MHz
Rated Torque:	0.3N
Unloaded Speed:	35RPM
Levels of Protection:	IP42
Working Temperature:	-10°C~+40°C

Model Name:	AC605-01
Power:	3.5W(±0.5)
Open-Circuit voltage:	21.5V
Short-Circuit current:	0.21A
Operating voltage:	18V
Working current:	0.19A
Working temp:	-20°C~+60°C
Size:	450x60(±0.3)x5mm

Model Name:	AC705-01/02
Working voltage:	12V DC
Working current:	4A
Capacity:	2800mAh/4000mAh
Working temp:	-10°C~+60°C
Size:	445x28mm

AI Motors Specialist

MOTORIZED SOLUTION
FOR ROLLER SHUTTER WITH
MOSQUITO SCREEN

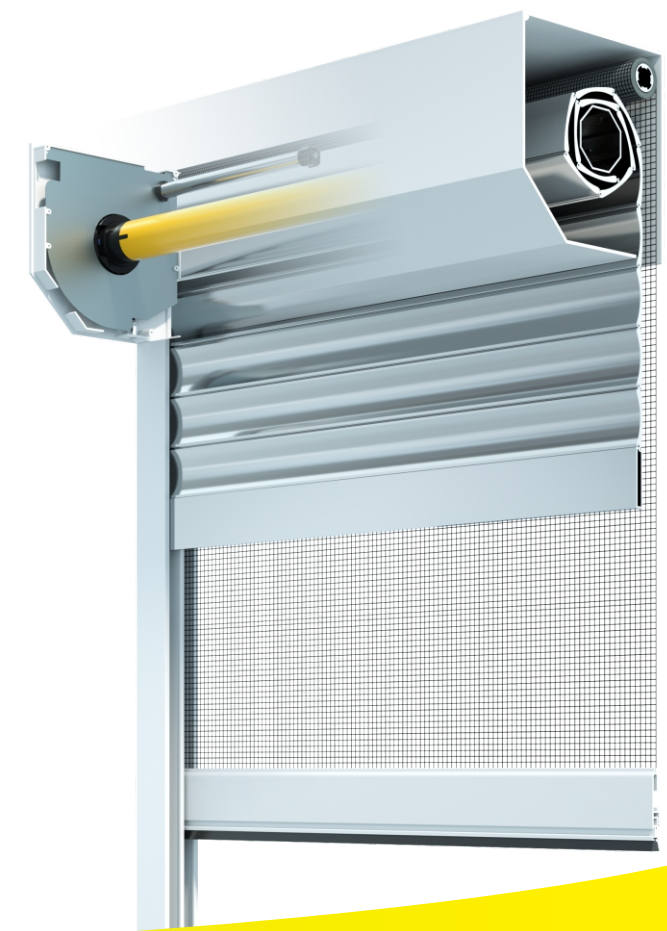

ADVANCED
AND EFFICIENT

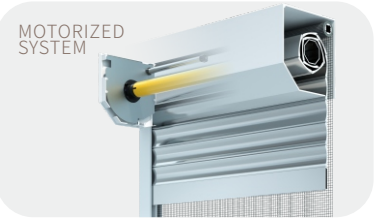

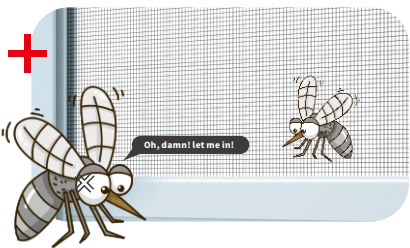

ADVANCED AND
EFFICIENT

Solar-powered obstacle detection motor
featuring Zigbee 3.0 technology

MOTORIZATION WITH INGENUITY

Discover the perfect combination between mosquito screen and roller shutter. Benefit from a mosquito net integrated into your roller shutter to fight against mosquitoes, it designed to allow good air passage while keeping insects out.

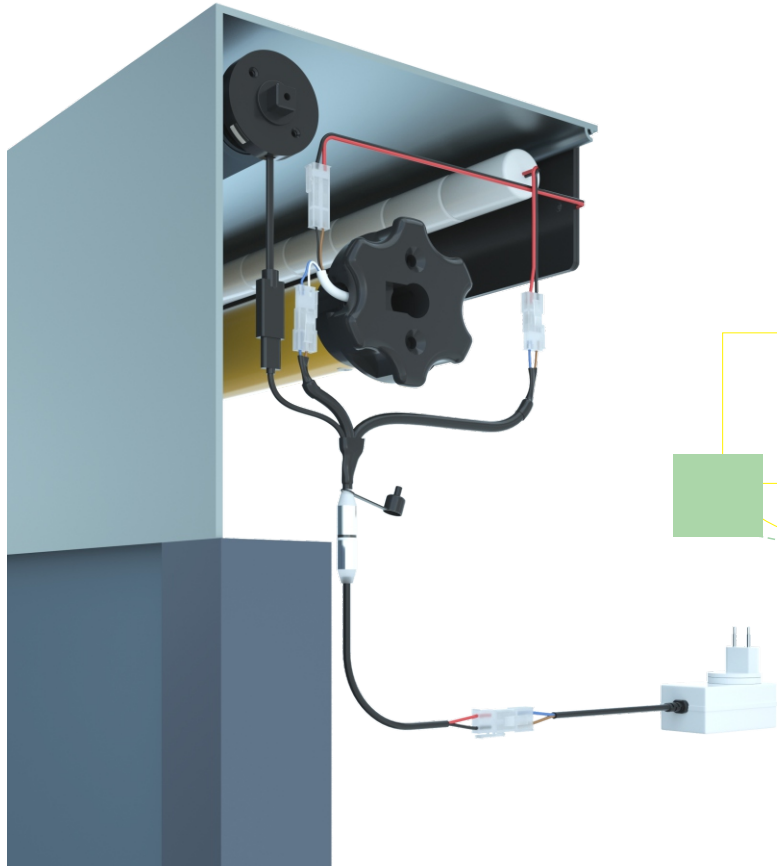

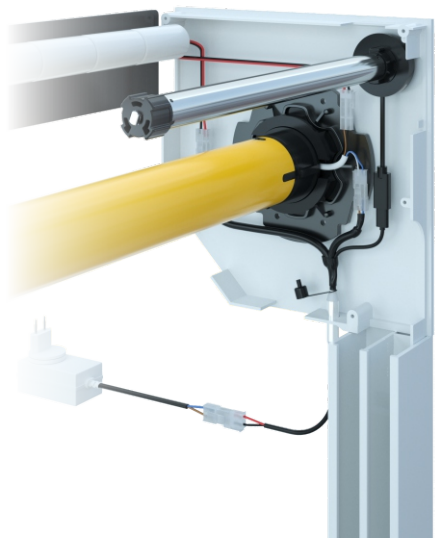

Voice control using your voice to control your smart shades, with our most recent innovation highlight solar-powered obstacle detection motor featuring Zigbee 3.0 technology which ensures seamless comfort for everyone, opening and closing the shades at the right time, even far away from your home.

SO EASY TO INSTALL

Motorizatn has never been easier because electric cables are nolonger required, with integrated solar panels which means that installation even faster!

Easy disassembly for recycling and repairs. where necessary.

COMPREHENSIVE HIGHLIGHTS

PROTECTIVE MOVEMENT

MOVEMENT IS TOTALLY CONTROLLED

- Motor with obstacle detection function it stops the shutter from coming down automatically when obstacles are detected to protect belongings
- Available for adjustment of obstacle detection sensitivity level.
- Available for activated or dis-activated obstacle detection function.
- Anti-freezing protection will stops the motor if frost or ice freezes the shutter in place.

LIMIT SETTING

THREE LIMIT SETTING MODE

- Automatically limit setting
- Semi-automatically limit setting
- Manual limit setting

SILENT

SILENT & SMOOTH MOVEMENT

- Quiet DC motor technology with silent movement which provides a enhanced acoustic comfort
- Soft start/soft stop functionality provides a smooth movement

ENERGY EFFICIENCY

FREE SOLAR POWER, THE WHOLE YEAR ROUND

- Solar power generation, sustainable energy source
- Electric cables are no longer required.
- Combined with weather sensor to adjust automatically which providing great sun protection in summer and avoid heat loss in the winter
